PLEASE NOTE: THIS CHART IS AN APPROXIMATE DEPICTION OF THE LOCATION OF DREDGING EQUIPMENT WITHIN FOUNTAIN LAKE. PLEASE USE CAUTION AROUND THESE AREAS.

Floating Pipeline: Stick buoys are placed every 100 feet along the floating segment of pipeline and contain flashing yellow lights for low light conditions. PLEASE PROCEED WITH CAUTION NEAR FLOATING PIPELINE

Submerged Pipeline: Anchors are installed to ensure the submerged portion of the pipeline maintains contact with the bottom of the lake and round buoys are placed every 500 feet along the submerged pipeline. PLEASE PROCEED WITH CAUTION NEAR SUBMERGED PIPELINE

Floating Signage: Floating signs are placed every 500 feet throughout the entire portion of pipeline in water.

Portions of the dredge pipeline will be floating in Bancroft Creek near the City of Albert Lea Transfer Station

Portions of the dredge pipeline will be floating and tied to the Western shoreline within Bancroft creek, please use caution in these areas.
