Illustrative Planting Plan

Flower Blooming Colors
Isanti Dogwood (ISD)
-White flowers in late spring
-Dark green foliage through season
-White berries in late summer
-Brick red leaves in fall
-Bright red bark for winter interest

Bailey Compact American Cranberry (BCC)
-Virginian Viburnum 'Bailey Compact'
-Pinwheel white flowers in spring
-Dark green foliage through season
-Scarlet berries in late summer through winter
-Orange leaves in fall
-Grey and gold branches for winter interest

Little Bluestem (GLBS)
Andropogon scoparius
-Grassy leaves that are bluish-green
-Spikes of light green flowers in late summer
-Red seed heads on showy plumes in early fall
-Dark red and gold stems through winter

False Sunflower (Common Oxeye) ‘Summer Sun’ (FFLS)
Heliopsis helianthoides 'Summer Sun'
-Dark oval green leaves all summer
-Bright yellow to Gold flowers from early Summer to mid-fall
-Attracts butterflies

Purple Coneflower (FPCF)
Echinacea purpurea
-Large purple flowers with copper centers
-Blooms from June to October
-Poignant dark green leaves
-Attracts birds and butterflies

Rough Blazingstar (FBZR)
Centaurium erythraea
-Flowers in a spike cluster up to 12" tall
-Plant height from 2'-5' tall
-Tall green stalks remain through season
-Attracts birds and butterflies

Great Blue Lobelia (FGBL)
Lobelia siphilitica
-Large masses of purple flowers
-Blooms from mid summer to early fall
-Dark green foliage
-Attracts hummingbirds and butterflies

Butterfly Milkweed (FBUM)
Asclepias tuberosa
-Fragrant orange flat-top flowers with golden overtones
-Blooms from mid to late summer
-Attracts butterflies

Autumn Red Daylily (FRSD)
Hemerocallis 'Ruby Stella'
-Bold red trumpet-shaped flowers with white to yellow throats
-Blooms from early to mid summer
-Low mounds of foliage
-Gut back in fall

Prairie Dropseed (GPRD)
Sporobolus heterolepis
-Low mounds of gray plumed grass
-Plumes of orange flowers during late summer to early fall
-Foliage turns gold in the fall
-Tan seed heads on showy plumes in fall

Pennsylvania Sedge (GPYS)
Carex pendula
-Low clumped, grass-like perennial
-Has a cluster of brown seed capsules that cling on the stem
-Foliage turns sandy-tan in the fall

Bearded Iris (FBR)
Iris sibirica
-Varity of flower colors
-Blooms from late spring into the summer and again in the early fall
-Flower stalks with dark green mounds of foliage

Stella de Oro Daylily (FSDD)
Hemerocallis 'Stella de Oro'
-Bold gold trumpet-shaped flowers
-Blooms from early summer to fall
-Foliage dense to the ground
-Attracts butterflies

Tufted Hair Grass (GTUH)
Deschampsia cespitosa
-Grassy leaves that stay dense to the ground
-Delicate spikes of chartreuse flowers bloom from early to late summer
-Showy plumes display in abundance from early to late fall.

Indian Grass (GIND)
Sorghastrum nutans
-Grows from 3'-7' tall
-The spikes are a golden brown to tan
-Showy spikes stay through summer and winter
