

# STORM DRAIN STENCILING

## What is storm drain stenciling?

Storm drain stenciling is a way to help raise awareness in our community that storm drains lead directly to local waterbodies. Dumping anything in a storm drain means it will most likely end up in our lakes and rivers

## What does it involve?

This is a volunteer activity that involves checking out a kit from the Shell Rock River Watershed District, travelling to a few storm drains, applying a stencil, and passing out informational flyers to nearby homes.

## Who can do it?

Anyone! This is a great activity for girl or boy scout troops, clubs, or families!

Call the watershed to reserve a kit. Stenciling works best in groups of 4 or 5, and we have 2 kits available. In order for children to participate, an adult is required accompany them.

City of Burnsville, MN

## Do I need to bring anything?

Wear clothes and shoes that can get stained, otherwise everything is included in the kit!

## What if I have more questions?

Feel free to call us at 507-377-5785, email Claire Rabine at [Claire.Rabine@co.freeborn.mn.us](mailto:Claire.Rabine@co.freeborn.mn.us), or stop into our office to ask any other questions you may have.
